# New additions to One Touch Fasteners

One Touch Fasteners are quick release fasteners for frequent changeover of machinery and fixture. Quick and easy tool-less clamping reduces setup time in changeover.

## **NEW** Flat Quarter Turn Clamps

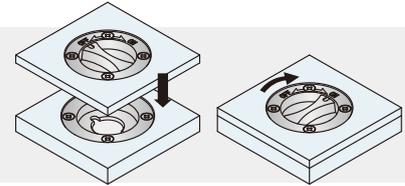

### KEY POINT

**Flat design with recessed knob and body**

Ensures no interference, and is ideal for use in limited spaces.

Clamp with turning the knob 90 degrees

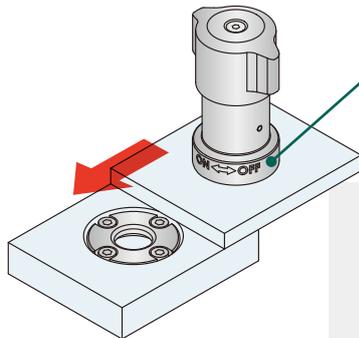

## **NEW** Retractable Heavy Duty Knob-Locking Pins

### KEY POINT

**Strongest clamping force of 2000 N!**

**Retractable shaft allows sliding movement**

The shank retracts at the OFF position to enable operations without interference with the base plate.

For Sliding Applications
